Jean Mehdi Grangeon is an established young artist who has presented his work in various venues in the United States and Europe. He spent one year in Paris where he participated in the Salon d'Automne 2002 and became a finalist in the youngest artist category. After this first success, he decided to pursue his career in New York City where he installed his new studio in the heart of the Williamsburg art community. Mr. Grangeon's extensive portfolio is evidence of his work recognition received by respected members of arts community. I'm pleased to support Mr. Grangeon in his career as an artist and I'm looking forward to seeing his future projects. His work is a part of our permanent collection.

Puccio Gallery, New York 2008
